Learning to shine on the Costa

The flagstones of Priory Park made a fine surface for the clicking heels of Spanish dance enthusiasts

A TOUCH of Spanish colour lightened Priory Park as Flamenco dancers showed people how it is done — Andalusian style.

Local youngsters joined in the classes and learned to swirl in time with clicking castanets.

It was all part of the attractions at Southend Borough Council's centenary celebrations, which include music and dancing from many parts and a host of other activities.

Those who missed the spectacle will have plenty of opportunities later in the celebrations.

The workshop was organised by Essex Regional Dance Council.

Step forward for a dance celebration

TOES tapped, heels clicked and hips swayed as Harlow came to life with a day of dance at the Mark Hall and Netteswell Community Association on Sunday.

The swishing skirts of the Spanish flamenco dancers heralded a demonstration of international harmony which included western line dancing, ballet and even a spot of belly dancing.

Irish dance, made popular by the success of Riverdance, was also represented, while a traditional Highland Fling kept the Scots' flag flying.

Organiser Mary Picket said the aim of the day was to join the various communities in a celebration of dance. "It was very successful," he said.

The Karen Chapman Tap Dancing School, who were unable to join in the festival due to other commitments, raised £530 for the association.
